EMPLOYMENT HISTORY

- NOVEMBER 2014 – PRESENT  **Relative Insight Ltd.**
Data Scientist. Custom web data scraping in Python as part of Relative Insight's client services.
- JUNE 2014 – SEPTEMBER 2014  **DataCentred Ltd., MediaCityUK, Manchester**
Cloud Platform Intern on the DevOps team. Created a customer facing Ruby on Rails and AngularJS web app which reflected a JIRA installation in real-time. Strong focus on Git, scalability and performance. Represented DataCentred at the Greater Manchester Data Dive and was described as “our awesome intern”.
- JUNE 2013 – MAY 2014  **NextWorldWeb Ltd., InfoLab21, Lancaster**
Moved custom websites to Object Orientated PHP (CakePHP), WordPress & CS-Cart frameworks. Automated WordPress theme creation from any site. Successful internship followed by private employment.
- 2007 – PRESENT  **Invisionsoft / jadaradix design + systems, Worldwide**
Developed ‘DS Game Maker’ since 2007 in .NET and C — it's now open source. By age 17 I'd sold over 1,500 serial codes and 350 physical ‘Homebrew Kits’. It was adopted at American summer camps and I sold site licenses to schools worldwide.
Engineered the complete cross platform/HTML5 game maker ‘Dark Flow’ (lead developer) with 4 friends. The games ran on PC via .NET and the web/mobile devices via HTML5. It was also commercially successful; we sold to the education sector and ran game making workshops.
I've also done paid full stack freelance work for clients including Astute Motoring, HiFi Design, Timberland Sheds and The Nail Spa.
